DETAILED ACTION

REASONS FOR ALLOWANCE

Claims 13-16 and 21-38 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose the combination of all the limitations recited, including an emitter including an enlarged portion located laterally away from the collector and the base.

The prior art of record fails to disclose the combination of all the limitations recited; including the area of the enlarged portion of the emitter is greater than the area of the emitter electrode and the enlarged portion of the emitter has a center of area located laterally away from the collector and the base by at least half a major dimension of the emitter electrode.

Therefore, the amended limitation together with the overall structure of a method for manufacturing a heat dissipating power amplifier integrated circuit is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
